Meet the **World's Transformation Gurus** and
Top Asia Business Leaders.

The world is transforming rapidly and like it or not,
ready or not, organizations will transform too
— for better or for worse.
A few organizations will thrive. We will focus on them.

*'All organizations today are in a crucible.
They will either transform and thrive, or die.'*
—Warren Bennis, PhD

et al.

*"It is all about learning,
participation, and
everybody's voice
included."*
- Roland Sullivan -

DAY 1 Glocal Realities

Together, we appreciate current global and local challenges. One challenge in particular, from keynoter Edgar Schein:

"Dear CEO leader, you are the culture, you need to model it." And how OD is there to help.

1. How challenges in the international arena impact the local context.
2. Understanding the Asian perspective - stories from Indonesia, India, China and more. CEOs and participant change agents share their experiences.
3. Understanding the international OD Network's "Global Framework of OD Competencies" and bringing it to work in Asia.

CLOSING :
Learnings and "Still Needed"

DAY 2 Envisioning

Together, we build on the evolution of OD and imagine its full expression in Asian organizations. CEOs and OD leaders share ideas, building blocks, experiences, lessons learned and global trends ... in the Asian context.

1. How OD has evolved internationally and how it is relevant today in Asia.
2. Putting the CEOs' stories together with the best practices in OD to envision highest performing organizations.
3. How WBL+WST shapes the way we can see the way forward - especially when supported by the Covision method of full engagement.

DAY 3 Into Action!

Together, we learn to embrace disruptions, and turn them to opportunities. We identify our learnings and apply them against the challenges in order to multiply growth in our organizations.

1. Understanding disruptions - learning to identify and embrace them.
2. Collecting and agreeing upon "key learnings" and "most useful approaches" for applying OD effectively against current challenges.
3. Through individual thinking and group processes, arrive at shared purposes for AODN, and then collective and personal actions and commitments.

WORLD OD Summit III
- Perla R.M. Tayko -

WOW!

An Experiential Learning Event

As wholes are greater than the sum of their parts, we will become whole as a large learning group and be able to make the greatest possible difference in our organizations.

How? With a WOW! Summit. It is a design which combines [Whole Brain Literacy](#) and [Whole System Transformation](#) and is enabled by Covision's technology for whole group communication and understanding.

Come join us — experience and learn the WOW!

Engaging and empowering the whole system, and whole brains, is one of the most effective approaches for facing today's dizzying rate of change. It connects people broadly and enlightens people deeply. Large organizations especially will benefit from the experiences their members will gain from this gathering of experts and practitioners, amplified by the unique conference design. It is a Wow! for many reasons. JOIN US!

DEVELOPING & TRANSFORMING ORGANIZATIONS

- LIFTING INDONESIA -

Asia Organization Development Network (AODN) Summit - 2017

WHAT IS ORGANIZATION DEVELOPMENT?

"Organization Development is the methodical pursuit of a transformative leap to a desired vision in an organization ... where strategies, technology and systems are blended and aligned in creating positive, sustained high performance. It is conducted in harmony with the local culture and promotes innovative and authentic leadership."

THE PURPOSE OF THIS SUMMIT

- 1 **To advance the field** of OD in Indonesia and Asia in significant ways in order to help CEOs and OD professionals build their organizations, and to help Indonesia realize its aspirations
- 2 **To advocate the benefits** of Organization Development and how it can transform organizations
- 3 To learn collaboratively **how-to transform our organizations** and jump on the bandwagon of development sweeping Asia.

HOW IS THIS SUMMIT DIFFERENT THAN ALL OTHER CONFERENCES?

- 1 This summit is **about transforming Indonesia** and the large organizations within it.
- 2 More specifically, this summit is **about Engagement... in a facilitated conversation for practical Empowerment**. It is not about expert speakers coming in, giving a speech and leaving ... but it is about engaging each one of you who participate and **co-creating prototypes and implementable solutions** for our most positive future
- 3 The design is based on **an emerging learning and transformation economy** rather than an expert knowledge and authoritative economy.

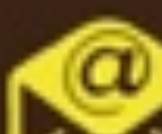

DESIRED OUTCOMES

- 1 **Connections** built between participants, including with the CEOs and Executives in a real-time community with likely ongoing relationships
- 2 **The OD Competencies Global Framework** is introduced and adapted to the Indonesian culture
- 3 An innovative **technology for engagement** is felt and well understood
- 4 Practitioners feel a **call to action** in how to apply OD across sectors and boundaries.
